STAR-BULLETIN 75 CENTS PER MONTH

AD CLUB OUTING
ON 'ROUND TOP'
TO BE PLEASANT

[An open letter to the members of
both the Ad Club and the Outdoor
Circle.]

The new road to Round Top is ap-
proaching completion and will soon
be turned over to the city and county.
Mr. Forbes, superintendent of public
works, suggests that a public park be
opened at a point near the summit, on
land owned by the territory, and over
looking the city. Members of the Ad
Club believe that the proposition has
merit and that the new road and pro-
posed park can, at a nominal cost, be
made a tourist asset of great value.

In order that the members of the Ad
Club and of the Outdoor Circle may
realize the possibilities of the scheme
and appreciate the wonderful scenic
beauty of the new road and park site,
the Ad Club will hold a session at the
"site" on Sunday, April 30, to which
all members of the two organi-
zations are specially urged to come.

The members and their guests will
assemble at the Promotion rooms and
will leave in a body at 12:30 o'clock
sharp. A hand-out lunch will be
served by the Alexander Young Hotel
at the usual price, 50 cents.

It is hoped that sufficient members
with autos will attend to convey those
who have none. Will you not come?
The proposition will be fully explained
by able speakers; there will be music
by Kaal's Quintet Club and the outing
will do you good. Bring your lady
friends with you; we want every
member who believes in promotion to
be there and help boost a scheme rich
with possibilities as a tourist attrac-
tion.

As the new road is not yet open to
the public, all are advised to join the
party at the Promotion rooms and go
up under Club escort.

Don't let a little shower frighten
you!

THE COMMITTEE OF ARRANGE-
MENTS.

J. A. PALMER, Chairman.

TUBERCULOSIS SCHOOL
SHOWS GOOD RESULTS

Statistics just issued by the anti-
tuberculosis bureau for the winter
term of the tuberculosis school, show
an enrolment of 29 pupils, all of whom,
according to the health authorities,
showed many good results from hav-
ing special care.

The greatest gain in weight of any
one child was six and one-fourth
pounds, and close to this record was
a gain of five pounds for the period.
Only one child in the school failed to
gain in weight, remaining at 63 pounds
during the entire season. There are
at present 55 children on the waiting
list. Seven were removed as appar-
ent cures last October, and three more
will be removed this coming August.

Good paper, it is said, can be pro-
duced from refuse hops that have
hitherto been thrown away in brewer-
ies.

In a hydroelectric plant at Sault
Ste. Marie, Ontario, there are two
electric generators which have been
operating the ship canal locks and
a swing bridge for 21 years.

'PREPAREDNESS'
HAT WINS FOR
HONOLULU BOY

Out of 10,000 hat designs entered in
an Easter contest for prizes offered
by the San Francisco Chronicle, that
of a Honolulu boy won the trophy for
being the most original. The boy is
J. Zane, the clever Chinese cartoonist
who won a Star-Bulletin contest last
year and since then has been studying
in San Francisco.

Zane won the prize for the most
original hat design with a "prepared-
ness" creation, showing the hat made
up like a gun-turret, with large hat-
pins resembling miniature long can-
non barrels, and with miniature can-
non balls on top. It was a simple but
striking design.

The contest was open only to wo-
men, and Zane thus appears as "Miss
J. Zane" in the list of awards, but
the judges awarded another prize to
a man also, the excellence of these
two ideas overcoming the rule against
male competitors. Zane got a \$10 hat
for an award, which he has sent to
his sister here.

POST COURTESY
FOR ARGENTINE
TRAINING-SHIP

[Special Star-Bulletin Correspondence]
PORT SHAFTER, April 28.—Gen.
Wisser, commanding the Hawaiian De-
partment, has sent a telegram to all
army posts on Oahu stating that he
has received a cablegram from the
state department that the department
has received information from the
Argentine ambassador that the naval
school ship Presidente Sarmiento will
visit Honolulu April 30 to May 5 on
a training trip.

On her behalf permission is request-
ed for officers of the vessel to visit
military and industrial establishments.
Gen. Wisser directs that post com-
manders extend the usual courtesies
subject to existing regulations.

CRASH OF GLASS
BRINGS CROWDS
OUT ON STREETS

Breaking of a sash cord on a win-
dow in the auditor's office nearly pre-
cipitated a riot in the city hall Wed-
nesday morning. The window fell
with a bang. The pane smashed into
a thousand pieces and fell into the lap
and all over the books of "Jimmie"
Lloyd, deputy auditor, and M. H.
Drummond, bank examiner. Lloyd
jumped up with a startled yell. City
officials and employees ran in from
the other offices. Passers-by in the
street below jumped and ducked. Wait-
ers and patrons ran out from the
Union Grill across King street. Clerks
and customers ran out from Silva's
store and looked up and down the
street.

"It created as much sensation as if
the Germans had begun shelling the
town from above," said Lloyd. He
was then hardly over his scare. "It
made as much noise as the explosion
of a bomb and came as suddenly. It
was a lucky thing that the awnings
below were up, for if they had not
been then someone might have got
hurt by the falling glass."

Y. M. C. A. DIRECTORS ARE
AGAIN PUT IN OFFICE

As was expected, the nominees re-
ported by the nominations committee
of the Y. M. C. A. were elected to suc-
ceed themselves, the directors for a
three-year term and the trustees for
four years. Those elected were:

Directors — Robbins B. Anderson,
Robert Anderson, George C. Potter, C.
B. Ripley and Ed Towse.
Trustee — H. M. von Holt.

FIRST PAPERS
NOT ENOUGH TO
HOLD HIS JOB

Mayor Lane has received a com-
plaint that H. H. Kennedy, statistician
in the office of the road department,
is not a citizen of the United States
and consequently not eligible to pub-
lic employment. But he won't talk
about it. Asked this morning what
he intended to do about it, he replied,
"Oh, let it rest. I'll take it up later."

George M. Collins, city engineer, de-
clared that Kennedy had taken out his
first papers, but that on consultation
with the city attorney he learned that
this was not sufficient. "I suppose
he and I are both out of luck," he said.
"I have known Kennedy, or known of
him, ever since I have been here and
never thought to inquire as to his
legal qualifications before employing
him. I knew he was an efficient ac-
countant, and that was all I wanted."
